Savar, Dhaka, Bangladesh

Phone: +8801738100351 | **Email:** sazzadhossen2580@gmail.com | **Portfolio**: https://surl.li/eheblr

PROFESSIONAL SUMMARY

Textile Engineering graduate and apparel merchandising professional with experience in product development, fabric and trims sourcing, supplier coordination, buyer communication, sample approvals, and bulk production follow-up. Currently working as an Assistant Merchandiser at Debonair Ltd., supporting 50 bulk orders per season and coordinating with 15 suppliers across five countries. Skilled in monitoring material availability, time-and-action (T&A) calendars, purchase orders, production progress, quality requirements, and shipment readiness. Experienced in supporting outerwear and insulated garment programs, with buyer exposure including VF Asia and The North Face.

KEY ACHIEVEMENTS

- **Bulk Order Management:** Manage merchandising activities and follow-up for 50 bulk orders per season.
- **Material Availability:** Achieved a reported 100% material in-house performance rate through supplier coordination and material follow-up.
- **International Supplier Coordination:** Coordinate with 15 suppliers across five countries, including China, Taiwan, Hongkong, Thailand, Vietnam, and local suppliers.

PROFESSIONAL EXPERIENCE

Debonair Ltd. (Debonair Group)

Trainee Merchandiser → Assistant Merchandiser | January 2023 – Present

Ashulia, Savar, Dhaka, Bangladesh

Buyer Exposure: VF Asia | The North Face

- Source and book fabrics, trims, and accessories from local and international suppliers for sample development and bulk production.
- Coordinate with 15 suppliers across five countries to support timely material procurement and delivery.
- Monitor material availability and supplier commitments to support on-time material in-house performance.
- Prepare and monitor time-and-action (T&A) calendars, purchase orders, and production plans against delivery schedules and production capacity.
- Follow up on product development and sample approval stages, including P1, P2, SMS, and PPS.
- Review technical packs, identify specification discrepancies, and coordinate with buyers to obtain clarification and approval.
- Coordinate print, embroidery, and appliqué mock-ups and follow up on buyer approvals.
- Monitor padding, synthetic insulation, and real-down requirements to ensure alignment with buyer specifications.
- Track bulk production progress, product quality, approval milestones, and shipment readiness.
- Coordinate with suppliers and internal teams to obtain required test reports before shipment.
- Liaise with commercial teams regarding payment coordination and order execution.
- Prepare trims cards and sample requisitions in coordination with the R&D team.
